

Bid Number 50-00133612

**ONE TIME PURCHASE OF A TRUCK MOUNTED COMBINATION JET-
VACUUM MACHINE FOR JEFFERSON PARISH DEPARTMENT OF PUBLIC
WORKS, DRAINAGE**

BID DUE DATE, TIME: MARCH 16, 2021 AT 2:00 PM

ATTENTION VENDORS!!!

**Please review all pages and respond accordingly, complying with all provisions
in the technical specifications and Jefferson Parish Instructions for Bidders and
General Terms and Conditions. All bids must be received in the Purchasing
Department by the bid due date and time.**

JEFFERSON PARISH

DEPARTMENT OF PURCHASING

CYNTHIA LEE SHENG
PARISH PRESIDENT

RENNY SIMNO
DIRECTOR

September 2020

Changes to Jefferson Parish Bidding Information

The Jefferson Parish Purchasing Department would like to make vendors aware of the following changes:

Total Bid Price Must Include the Cost of Naming Jefferson Parish as Additional Insured:

Bidder acknowledges that Bidder recovered the cost of any required insurance in the contract price as required by La.R.S. 9:2780.1 and that Bidder recovered any such cost for the purposes of insuring an obligation to indemnify Jefferson Parish, defend Jefferson Parish, or hold Jefferson Parish harmless and that Bidder's indemnity liability is limited to the amount of the proceeds that are payable under the insurance policy or policies that Bidder has obtained.

Electronic Procurement: Beginning November 1, 2020, Jefferson Parish will no longer accept manual bid submissions; and will only accept bid submissions electronically via our e-Procurement system, Central Bidding. Central Bidding can be accessed by visiting either www.centralbidding.com or www.jeffparishbids.net. All bidders will be required to register with Central Bidding. Jefferson Parish vendors are able to register for free by accessing the following link: <https://www.centrauctionhouse.com/registration.php>.

Probable Construction Cost: Per Jefferson Parish Administrative Policy, the probable construction cost is not revealed in the Jefferson Parish Bidding Documents. Jefferson Parish Administrative Policy has changed and a range of the probable construction cost will be stated in the Jefferson Parish bidding document, entitled Important Notice to All Bidders – Bid Requirements. Per Louisiana Public Bid Law, the probable construction cost will be read at the bid opening.

Insurance Requirement: All bidders must provide proof of valid insurance in the required amounts as stated in the Standard Insurance Requirements for bidding purposes. Failure to provide the proof of valid insurance in all of the required coverage amounts will result in bid rejection.

**ONE TIME PURCHASE OF A TRUCK MOUNTED COMBINATION JETVACUUM
FOR JEFFERSON PARISH DEPARTMENT OF DRAINAGE**

VEHICLE-EQUIPMENT SPECIFICATIONS

SPECIFICATION NO: 002-2021

TRUCK MOUNTED COMBINATION JET-VACUUM MACHINE

The intent of this specification is to define the minimum requirements of the **Parish of Jefferson** for a vacuum air-conveying sewer cleaner. This unit is designed for and capable of simultaneous high-pressure jetting and vacuuming for the removal of sand, grit, grease, sludge, stones and other materials from sanitary sewers, storm sewers, catch basins, pumping stations, and other facilities. The unit will have a self-contained water supply for use with a high-pressure cleaner for breaking of blockages and removal of material contained therein. The unit will include an air conveying system capable of simultaneous removal of debris flushed to the manhole by the sewer cleaner system, or debris removal from catch basins, sumps, digesters, wet wells, etc. using the single chassis engine as the power source. The vacuum system will include a sealed body for storage and removal of the collected debris. The unit will be designed for ease of maintenance and be operational by one man and all controls will be located at an operator's station in front of the truck for convenience and safety. The combination machine will comply with all federal, state and local laws binding upon this type of equipment.

TRUCK CAB & CHASSIS

State:

Chassis Make:

Chassis Model:

GW1R: 60,000 lbs., minimum.

Wheelbase: 230 In., maximum.

Front axle shall be 20,000 lbs. minimum, Set Back Axle.

Rear axle shall be 40,000 lbs. Minimum with heavy-duty tandem axle housings and a ratio of 5.86.

Front & Rear oil seals shall be provided.

Front & Rear dust shields shall be provided

Suspension

Front suspension shall be 20,000 lbs. Minimum, flat leaf style.

Front shock absorbers shall be supplied.

Rear suspension shall be 40,000 lbs. Minimum with multi-leaf springs and 54" axle spacing.

Brake System - ABS

To ensure brake system performance, safety and service life of chassis, a 4 Wheel, ABS brake system will be supplied.

Front & rear service brakes shall be Q+ cast spider cam, double anchor, fabricated shoes.

Low air warning light and buzzer shall be supplied.

To provide clean, dry air to the chassis brake system, a brake line air dryer with shield, heater and integral reservoir will be provided.

An 18.7 CFM air compressor shall be supplied.

Steering

Complete power steering system, including pump, fluid reservoir and oil/air power steering cooler shall be provided.

The following gauges and controls shall be furnished:

- Oil pressure gauge
- Engine coolant temperature gauge
- Tachometer
- Odometer/trip/hour meter/voltage/diagnostic display
- Speedometer
- Primary and secondary air pressure gauges
- Transmission oil temperature gauge
- Fuel gauge with DEF gauge
- Key operated ignition switch

Engine

Engine shall be a four-cycle diesel, turbo-charged and after-cooled.

Engine shall be rated at 370 HP @200 RPM, 2100 GOV RPM.

Engine shall have a torque rating of 1250 LB/FT. @ 1,400 RPM.

Engine shall be water cooled with antifreeze protection to -34 degrees Fahrenheit.

Engine shall have vertical muffler and exhaust pipe (11' 6-) height and be equipped with a Diesel Particulate Filter & SCR system for 2008 EPA emission requirements.

Integral electronic protection shutdown system for low oil pressure and high water temperature shall be included.

Transmission

Transmission shall be an Automatic with PTO provision and water to oil cooler.

Transmission shall come installed with synthetic transmission fluid.

Engine Equipment

The tz-volt alternator shall have a minimum of 160-amp output rating.

Two (2) batteries shall be maintenance free and rated at 2,250 eCA with a master battery disconnect.

Air intake will be captured through the side of the hood with and directed to a firewall-mounted gir cleaner.

An on/off clutch engine fan shall be supplied with automatic controls.

A full flow/bypass oil filter shall be supplied.

Wheels & Tires

Front wheel rims shall be 5-hand steel disc type 22.5 X 12.25.

Rear wheel rims shall be 2-hand steel disc type 22.5 X
8.25.

Front tires: radial tires; type 425/65R22.5-20 ply rated.

Rear tires: radial tires; type MIS 11R22.5-14 ply rated.

Warranty

The basic truck chassis & drive train shall be warranted by the manufacturer for two (2) years,
unlimited miles, unless otherwise specified.

COMBINATION JETNACUUM BODY

DEBRIS BODY

A dual radius designed vessel using high strength ASTM A572 grade 50 steel, 1/4" upper and lower
radius section, 1/4" sidewalls, front bulkhead and 3/8" rear bulkhead shall be provided.

A rear door constructed of 1/2" high strength steel ASTM A572 grade 50 steel shall be provided.

The debris body shall have a volumetric capacity of 8 cubic yards, minimum.

The rear door shall hydraulically lock/unlock, raise and lower using one hydraulic cylinder to perform
the function. The cylinder shall be equipped with a check valve for safety.

Tailgate locking wedges shall have a reverse bevel to maintain a mechanical lock if hydraulic
pressure
should be lost for any reason.

A replaceable, reversible neoprene seal shall be supplied for the tailgate.

Dumping and door controls will be located forward of the debris body on the driver's side for safety,
so
operator does not have to cross in front or behind vehicle at dumpsite and so driver will not be
subject to debris from dumping.

An external, grease able, float type debris level indicator with a stainless-steel ball shall
be provided.

Debris inlet tube shall enter at top, front of tank and continue into tank and extend 3/4 of
the specified
tank length. Airflow shall then exit at the front of tank for best possible material
separation

Debris shall hit bolted on deflector plate at top of tank rather than rear bulkhead (door) to prevent
premature wear.

A float type automatic vacuum shutdown system with a stainless-steel ball, housed in a carbon steel cage shall be provided. Systems requiring switches to accomplish this are unacceptable.

Body door hinges and pins shall be bolted to enable shim adjustment with grease fittings. Lock receivers shall also be shimmed for adjustment as seal wears.

Tailgate will hydraulically open, close & lock.

A decant system will be provided consisting of a 6" butterfly valve mounted at the lowest point of the rear door and 20' x 6" of lay flat hose with rack.

Decant port to include a port plumbed with an Yz" quick coupler and shutoff valve to aid in port clean out via the wash-down hose should the decant port become clogged.

Internal carbon steel standpipes, 6" x 24" with strainers on top, shall be supplied; one for decant and one for the sludge pump (two total).

The debris tank shall also be equipped with 4" sludge system capable of pumping 710 GPM @ 10' head while vacuuming if needed or independently. A 3" ball valve and male cam lock will be provided on outlet. System shall include a 4" valve on sludge pump inlet, to be brass slam type.

A 3rd decant line plumbed to the front of the unit with ball valve at front bumper shall be supplied. Ball valve shall be equipped with male cam lock and include a jumper hose at rear with cam locks to hook pump to decant line at rear.

A safety body prop shall be supplied to secure the body during repairs. It shall be remotely operated so that the operator does not have to get under the debris tank while engaging the prop.

An external rear door safety prop shall be provided as a secondary device to hold the door open for cleaning of debris body or inspection.

The debris body will be equipped with a full flow internal tank flusher system consisting of a minimum of seven (7) stainless steel nozzles mounted in a flush bar at the front bottom bulkhead of the debris body and sized to utilize the full capacity of the primary water pump to clean the debris body. Manifold shall be external and shall not encroach on inside of debris body.

A high-pressure ball valve will be installed at the high-pressure manifold to control water to the tank flush and plumbed from manifold to tank flush.

A bolt-on carbon steel splash shield around sides and bottom of tailgate shall be supplied.

The debris body and water tanks shall be affixed on an independent frame, separate from the chassis and power frame.

Debris tank shall be mounted via a 3-point mounting system to allow flexing.

A manifold with all lube points plumbed so tailgate can be greased from ground shall be supplied.

Ground level lube provision for float level indicator shall be supplied.

HOIST

The hoist cylinder shall be a single post type with NTEA performance range. Double-acting cylinder pins must be removable with retaining bolts. It shall provide a minimum lifting capacity of 56,000 lbs. and a minimum dump angle of 50 degrees. The hoist cylinder shall have safety check valves to prevent collapse from hydraulic failure.

WATER TANKS

Dual water tanks shall have a combined capacity of 1000 U. S. gallons, minimum, and shall be internally baffled for safety.

Tanks shall be constructed of aluminum or stainless steel only. The shell and baffles shall be $\frac{1}{8}$ " thick, minimum, and the end plates shall be at least $\frac{1}{4}$ " thick.

Each tank will be equipped with 2" ball valve low point drains, internal baffles and a six (6) inch crossover tube between tanks for quick and level filling.

Water tanks will not rise with the debris body while dumping.

Water-tanks will not share a common wall with debris tank and will be easily removed in the event of replacement or repair.

Tanks will be located above chassis frame rails to provide a flooded inlet to the water pump and protection from road damage and off-road uses and for ease of service to drive line components.

Unit will have an anti-siphon device with 4" air gap and fill hose storage rack. Water fill connection will be on passenger side and requires a 2" W strainer.

Unit shall have an electronic water level indicator located at front operator control panel. A water level sight tube located on the passenger-side water tank shall also be included.

Water tanks shall have a lifetime warranty against rust, cracking, material and workmanship.

HIGH PRESSURE WATER SYSTEM

Water pump will produce 80 GPM @ 2,500 PSI, minimum.

Pump will be a triplex, plunger-style. Smooth-flow design. Pumps that require accumulators are unacceptable.

Starting from high-pressure side of water pump, 1" 1.0. Plumbing will be used up to hose reel, including water manifold, control valve and swivels.

Swivel must be designed so it can be tightened as it wears and be rebuilt.

The water pump shall be driven from chassis engine via transmission, heavy-duty OMSI transfer case and hydrostatic drive. Driving the pump off of the front of the chassis engine crankshaft is unacceptable.

Water pump speed shall be fully adjustable without changing the engine RPM. Controls for starting and stopping the water pump and varying the flow and pressure shall be at the control panel. An integral oil to water heat exchanger with a 143,000 BTU per hour rating shall be included.

Water pump shall run independently from vacuum pump.

Will be equipped with full flow adjustable pressure regulator and include a strainer on the water pump inlet.

Pump shall be equipped with drain valve on the low-pressure side at the bottom, center of the pump. Water pump and vacuum system shall be able to simultaneously operate in continuous duty at maximum water pressure and flow while achieving maximum vacuum.

Pressure and flow controls shall be located at the operator's station.

Water pump shall be in a position so it has a positive feed from the water tanks at all times, regardless of the water tank level. Pump shall be located so a mechanic does not have to remove pump from truck to repair when necessary and there shall be no obstructions in front of pump for ease of access.

The entire high-pressure water system shall have an air purge system to dewater all plumbing for winterization. The air shall be supplied by chassis air system that is isolated by a high-pressured ball valve and check valve.

Unit will have a spring retractable handgun hose reel with 50' of 1 1/2" hose.

A hydro excavator package shall be included and will be frame mounted. It shall operate off of the main water pump rated at 15-20gpm @ 2000 psi. Water pump will be hydrostatically driven with an on/off control. It shall include an auto-rewinding spring-loaded hose reel with 50' of 1/2" hose and a Single pistol-grip style handgun w/ lance and nozzle rated for system performance.

VACUUM SYSTEM

The blower shall be an 8X24.

The vacuum system shall be provided by a positive displacement, rotary lobe-type blower capable of 4000 CFM inlet volume and maximum 18" Hg.

The blower shall have a load rating of 8X24 4000CFM@18" Hg (245 H2O) 204HP@2470RPM.

It shall have dual vacuum relief valves with one set at 17.5" Hg and one set at 18" Hg.

The vacuum system shall have an air operated 4" vacuum relief valve to vent ambient air to the blower intake in order to relieve vacuum in the body and suction tubes/hoses and will be controlled at control panel and on remote pendant.

A means of starting, stopping and varying the vacuum suction from the operator's station shall be provided.

The blower shall be driven from chassis engine via transmission and heavy duty OMS I transfer case and direct drive via drive shaft.

The transfer case will have a driver's side, remote mounted fill port and sight glass.

The cyclone separator shall be built out of high strength ASTM A572 grade 50 steel, capable of separating material down to 50 micron particles or coarser from air stream. The cyclone shall taper down to a dropout box with a clean out hatch, Dropout box shall have a two (2) inch drain with ball valve mounted at bottom of box.

A stainless-steel removable strainer basket shall be installed before blower inlet.

Unit shall have non-skid steps with handgrips allowing safe passage from ground level to a work platform at top of unit.

The blower shall contain a high efficiency exhaust silencer with an aluminum rain cap. It will have a built-in tube rack that will hold four (4) 8" diameter suction tubes for a total of 24' of tubes with positive lock tube retainer in lieu of bungee straps.

Unit shall also include an additional rear door tube rack that holds (two) tubes, with positive lock tube retainer system in lieu of bungee straps.

BOOM

Boom shall be designed for front-end operation with 8" ID pick-up hose mounted and stored at front bumper. Need or use of support rod for boom storage is unacceptable.

Hydraulically powered up/down, left/right, and in/out shall be accomplished with a single joystick.

Unit will be equipped with a true tube in a tube boom telescoping section with a travel of eight (8) feet

six (6) inches.

Boom shall have a coverage area of 550 square feet. **Submit diagram.**

Boom will have a lifting capacity of 1000 lbs. with dual hydraulic, lift cylinders. It will have a lifting capacity of 5501bs, minimum, when boom is fully extended.

A boom-lifting eye shall be incorporated at the lower rigid tube to support lifting attachments.

Boom shall swing 90 degrees to each side of the truck via a hydraulic driven worm gear. A cylinder rotated boom is unacceptable.

Boom rotation and extension shall be grease able remotely from ground level.

Boom shall remain stationary and not rise with debris body.

All connections between debris body and vacuum system will be self-aligning.

Boom with steel elbow must be able to extend and retract without affecting the length of the pickup hose. Rubber hose in place of steel elbow is unacceptable.

Extra heavy-duty boom elbow shall have a preformed C channel welded to the outside radius of the elbow.

A remote manifold with all lube points plumbed so the boom can be greased from ground level shall be supplied.

ELECTRICAL SYSTEM

The entire electrical system shall be sealed to IP66 ratings that exceed NEMA four standards.

REEL AND OPERATOR STATION

The front mounted reel shall have the ability to articulate 230 degrees across the front of the unit, with a capacity of 800 feet of 1" hose. The operator will easily be able to rotate and lock the reel at any angle desired within the rotation.

The hose reel will be hydraulically powered in both directions by a hydraulic motor coupled to a planetary gearbox. Chain and sprockets are unacceptable due to excessive wear and maintenance.

All operations shall be routed through a Can-Bus control system.

Hose reel control valve shall have a speed control device to regulate the rotational speed of the reel in both directions.

Hose reel will rotate on a turntable slewing bearing with a friction brake that can be applied in any rotated position. Gears mounted on hose reel bearing are not acceptable due to missed positions when teeth and pawl do not line up.

Hose reel brake band must be adjustable with turnbuckle and be applied by an air cylinder.

Hose reel must be mounted in the center of the chassis frame rails and not rotate out of centerline of frame rails into traffic for safety. The need for / use of an outrigger leg for support is unacceptable.

The hose reel shall tilt forward for access to the truck engine via a hydraulic cylinder powered by an

electric power pack. Electric power pack shall run independently from main system. Power pack shall operate whether truck engine is running or not.

Unit shall have a manual dual roller telescoping level wind on hose reel.

Hose reel control panel will be easily removable and able to be mounted to either side of the reel, giving the operator the ability to always be positioned away from traffic or any other safety hazard.

Hose reel control panel shall have a remote shift (hot shift) for transfer case to engage and disengage the blower from the hose reel control panel. Safety switches shall be installed on the transfer case.

A digital footage counter on center shaft of reel will be installed.

CONTROLS and GAUGES

Chassis Engine Tachometer/Hour Meter on LCD Display
Vacuum Gauge on Color LCD Display
Water Pressure Gauge on LCD Display
Water Pump Hour Meter on LCD Display
Vacuum Pump Hour Meter on LCD Display
Hydraulic Pressure Gauge
Truck Engine Throttle - Electrically Controlled
Water Pump Engage/Hydraulic Flow Control
Blower Engage/Disengage
Electric Throttle Safety Return to Idle Switch
Reel Tilt
On/Off Water Pressure Valve
Hose Reel Direction and Speed Control
Single Boom Control Joystick to Control All Boom Functions
Single Reel Control Joystick for Direction and Speed Control
Remote Pendant Push Button Control
Hose Reel Articulation Brake Valve

Vacuum Relief
Boom Work Lights
Low Water Warning Light and Alarm
High Debris Level Indicator Hooked to Warning Light and Vacuum Relief

HYDRAULIC SYSTEM

Pump shall be transfer case-mounted piston pump with test ports for troubleshooting and shall produce 18 GPM at 2000 PSI, 1800 RPM, minimum.

The hydraulic reservoir shall be a modular component with a minimum of 40 gallons capacity and will have a level sight-eye and temperature gauge. Ten (10) micron filters shall be installed on both the suction and return lines and shutoff valves shall be installed on suction lines.

Unit shall be equipped with emergency 12-volt de electric hydraulic power pack to bypass system so boom, body and hose reel can be moved in the event of engine or hydraulic failure. Manual hand pump systems are not acceptable.

LIGHTING

A handheld spotlight with 20' chord and retractable reel shall be located at front bumper.
LED D.O.T. Lighting includes stop, tail, turn and backup lights.
Boom will be equipped with two work lights.
Rear mounted 360-degree, super LED strobe light.
Side mirror mounted LED Strobe lights - one on left side. One on right side.
Rear mounted traffic advisor-bar type LED

TOOLBOX~ENCLOSURES

Unit shall have one lockable steel toolbox, 18"x18"x36" on passenger side.
Unit shall have one lockable steel toolbox. 18"x18"x36" on driver side.
Unit shall have one, closet-style. Behind-cab tool cabinet on each side, for long-handled tool storage.
Unit shall have one traffic cone holder.

REQUIRED ACCESSORIES

Unit will be supplied with 24 feet of 8' aluminum tubing. Including a catch basin tip.
600 feet of 1" x 2500-PSI sewer hose will be installed on the reel.
10' x 1" Leader hose shall be installed to end of the sewer hose.
Clear Lexan type protective shield shall be installed on the hose reel.
One-inch radial, dual degree nozzle
One-inch rotating head, grease & root cutting nozzle with viscous-fluid optimized speed control
Manhole bottom hose guide - tiger tail
25' x 2-1/2" Fill hose
Hydrant wrench
Manhole hook
Emergency road kit triangles & Sibs fire extinguisher
Camera System - two channel 7" color monitor with backup and front facing cameras
Electric backup alarm
Lube chart
Fenders with mud flaps
Front & rear tow hooks
One set of Operation & Maintenance manuals
One set of chassis Parts and Service manuals

MOUNTING

The unit will be factory mounted on the specified chassis and will not exceed a height of twelve (12) feet. No part of the unit will extend beyond specified height while traveling.

TRAINING

Product training will be provided upon delivery of new unit. The purpose shall be to train operating and maintenance personnel on proper O & M procedures.

Paint

The unit will be powder coated singular color to match the owner's color specification.

WARRANTY:

MANUALS: (2) PARTS, (2) SERVICE MANUALS, (2) WIRING DIAGRAMS IF
MANUFACTURER STILL PROVIDES. IF NO MANUALS, CD'S WILL
BE
ACCEPTED.

SAFETY: MUST MEET OR EXCEED FEDERAL AND STATE SAFETY
STANDARDS.

LOUISIANA STATE DEALER'S LICENSE IS REQUIRED, IN ACCORDANCE WITH
LA RS 32:1254 ET SEQ. VENDOR MUST PROVIDE A LOUISIANA DEALER'S
LICENSE WITH THEIR BID.

JEFFERSON PARISH

PURCHASING DEPARTMENT
P.O. BOX 9
GRETN, LA. 70054-0009
504-364-2678

BUYER: DNELSON@jeffparish.net

BIDS WILL BE RECEIVED ONLINE VIA WWW.JEFFPARISHBIDS.NET UNTIL 2:00 PM, 3/16/2021 AND PUBLICLY OPENED THEREAFTER IN THE WEST BANK PURCHASING DEPT, SUITE 4400, JEFFERSON PARISH GENERAL GOVERNMENT BUILDING, 200 DERBIGNY STREET, GRETN, LA 70053 AND VIA TELECONFERENCE (DIAL-IN AT (504) 323-1800, MEETING ID: 181357) At no charge, bidders are to submit via Jefferson Parish's electronic procurement page by visiting www.jeffparishbids.net to register for this free site. Additional instructions are included in the text box highlighting electronic procurement.

LATE BIDS WILL NOT BE ACCEPTED

NOTE: ONLY BIDS WRITTEN IN INK OR TYPEWRITTEN, AND PROPERLY SIGNED BY A MEMBER OF THE FIRM OR AUTHORIZED REPRESENTATIVE, WILL BE ACCEPTED. PENCIL AND/OR PHOTOSTATIC FIGURES OR SIGNATURES SHALL RESULT IN BID REJECTION. HOWEVER, ELECTRONIC SIGNATURES AS DEFINED IN LSA - R.S. 9:2620(8) ARE ACCEPTABLE. SIGNATURE MUST BE A SECURED DIGITAL SIGNATURE.

INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

THE FOLLOWING INSTRUCTIONS APPLY TO ALL BIDS

All bids submitted are subject to these instructions and general conditions and any special conditions and specifications contained herein, all of which are made part of this bid proposal reference. By submitting a bid, vendor agrees to comply with all provisions of Louisiana Law as well be in compliance with the Jefferson Parish Code of Ordinances, Louisiana Code of Ethics, applicable Jefferson Parish ethical standards and Jefferson Parish Resolution No. 113646 and/or Resolution No. 113647 as amended.

Jefferson Parish adheres to the Louisiana Code of Governmental Ethics, contained in Louisiana Revised Statutes Annotated, R.S. 42:1101, et seq. Vendor/Proposer by this submission, warrants that there are no "conflicts of interest" related to this procurement that would violate applicable Louisiana Law. Violation of the Louisiana Code of Governmental Ethics may result in rescission of contract, permit or licenses, and the imposition of fines and/or penalties, without contractual liability to the public in accordance with applicable law.

All vendors submitting bids should register as a Jefferson Parish vendor if not already yet registered. Registration forms may be downloaded from <http://purchasing.jeffparish.net> and by clicking on Vendor Information. Current W-9 forms with respective Tax Identification numbers and vendor applications may be submitted at any time; however, if your company is not registered and/or a current W-9 form is not on file, vendor registration is mandatory. Vendors may experience a delay in payment if your company is not a registered vendor with Jefferson Parish.

All quotations shall be based on F.O.B. Agency warehouse or job site, anywhere within the Parish as designated by the Purchasing Department. This provision does not apply to public works projects

JEFFERSON PARISH requires all products to be new (current) and all work must be performed according to standard practices for the project. Unless otherwise specified, no aftermarket parts will be accepted. Unless otherwise specified, all workmanship and materials must have at least one (1) year guaranty, in writing, from the date of delivery and/or acceptance of the project. Any deviations or alterations from the specifications must be indicated and/or supporting documentation supplied with bid submission.

Bidders should submit all questions in writing via email to the buyer's email address as indicated above, no later than Five (5) working days prior to the bid opening. Bid numbers should be mentioned in all requests. If submitting online, vendors may send questions via the E-Procurement site no later than Five (5) working days prior to the bid opening.

If this bid requires a pre-bid conference (see Additional Requirements section), bidders are advised that such conference will be held to allow bidders the opportunity to identify any discrepancies in the bid specifications and seek further clarification regarding instructions. The Purchasing Department will issue a written response to bidders' questions in the form of an Addendum. Please note that all official communication will be expressed in the form of an addendum.

Visit our website at [HTTP://PURCHASING.JEFFPARISH.NET](http://PURCHASING.JEFFPARISH.NET)

All formal Addenda require written acknowledgement on the bid form by the bidder. Failure to acknowledge an Addendum on the bid form shall cause the bid to be rejected. JEFFERSON PARISH reserves the right to award bid to next lowest responsive and responsible bidder in this event.

JEFFERSON PARISH will accept one price for each item unless otherwise indicated. Two or more prices for one item will result in bid rejection. Bidders are required to complete, sign and return the bid form and/or complete and return the associated line item pricing forms as indicated. Vendors must not alter the bid forms. Doing so will cause the bid to be rejected.

A corporate resolution or written evidence of the individual signing the bid having such authority must be submitted with the bid. Failure to comply will cause bid to be rejected. For corporate entities, such written evidence may be a printout of the Louisiana Secretary of State's website listing the signatory as an officer. Such printout shall be included with the bid submission. Bids submitted by Owners or Sole Proprietorships must include certification that he or she owns the entity for which the bid is signed. This documentation must be submitted with the bid. Failure to do so will result in bid rejection.

NOTE: A sample corporate resolution can be downloaded from our website <http://purchasing.jeffparish.net> or you may provide your own document. A sample certification of sole proprietorship can also be downloaded from our website <http://purchasing.jeffparish.net> or you may provide your own document.

INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

A. AWARD OF CONTRACT: JEFFERSON PARISH reserves the right to award contracts or place orders on a lump sum or individual item basis, or such combination, as shall in its judgment be in the best interest of JEFFERSON PARISH. Every contract or order shall be awarded to the LOWEST RESPONSIVE and RESPONSIBLE BIDDER, taking into consideration the CONFORMITY WITH THE SPECIFICATIONS and the DELIVERY AND/OR COMPLETION DATE. SPLIT AWARDS MADE TO SEVERAL VENDORS WILL ONLY BE GRANTED TO THOSE DEEMED RESPONSIVE AND RESPONSIBLE.

All bid prices shall remain valid for 45 days. Jefferson Parish and the lowest responsive and responsible bidder(s) by mutual written consent may mutually agree to extend the deadline for award by one (1) or more extensions of thirty (30) calendar days.

PROTESTS: Only those vendors that submit bids in response to this solicitation may protest any element of the procurement, in writing to the Director of the Purchasing Department. Written protest must be received within 48 hours of the release of the bid tabulation by the Purchasing Department. After consultation, the Parish Attorney's Office will then respond to protests in writing. (For more information, please see Chapter 2, Article VII, Division 2, Sec. 2-914.1 of the Jefferson Parish Code of Ordinances.)

PREFERENCE: Unless federal funding is directly spent by Jefferson Parish for this purchase, preference is hereby given to materials, supplies, and provisions produced, manufactured or grown in Louisiana, quality being equal to articles offered by competitors outside the state. "LSA – R.S. 38:2251-2261"

B. USE OF BRAND NAMES AND STOCK NUMBERS: Where brand names and stock numbers are specified, it is for the purpose of establishing certain minimum standards of quality. Bids may be submitted for products of equal quality, provided brand names and stock numbers are specified. Complete product data may be required prior to award.

C. CANCELLATION OF CONTRACT: JEFFERSON PARISH reserves the right to cancel all or any part if not shipped promptly. No charges will be allowed for parking or cartage unless specified in quotation. The order must not be filled at a higher price than quoted. JEFFERSON PARISH reserves the right to cancel any contract at anytime and for any reason by issuing a THIRTY (30) day written notice to the contractor.

For good cause and as consideration for executing a contract with Jefferson Parish, vendor conveys, sells, assigns and transfers to Jefferson Parish or its assigns all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of Louisiana, relating to the particular good or services purchased or acquired by Jefferson Parish.

D. PRICES: Jefferson Parish is exempt from paying sales tax under LSA-R.S. 47:301 (8)(c). All prices for purchases by Jefferson Parish of supplies and materials shall be quoted in the unit of measure specified and unless otherwise specified, shall be exclusive of state and local taxes. The price quoted for work shall be stated in figures. In the event there is a difference in unit prices and totals, the unit price shall prevail.

Quantities listed are for bidding purposes only. Actual requirements may be more or less than quantities listed.

Bidders are not to exclude from participation in, deny the benefits of, or subject to discrimination under any program or activity, any person in the United States on the grounds of race, color, national origin, or sex; nor discriminate on the basis of age under the Age Discrimination Act of 1975, or with respect to an otherwise qualified handicapped individual as provided in Section 504 of the Rehabilitation Act of 1973, or on the basis of religion, except that any exemption from such prohibition against discrimination on the basis of religion as provided in the Civil Rights Act of 1964, or Title VI and VII of the Act of April 11, 1968, shall also apply. This assurance includes compliance with the administrative requirements of the Revenue Sharing final handicapped discrimination provisions contained in Section 51.55 (c), (d), (e), and (k)(5) of the Regulations. New construction or renovation projects must comply with Section 504 of the 1973 Rehabilitation Act, as amended, in accordance with the American National Standard Institute's specifications (ANSI A17.1-1961).

INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

Jefferson Parish and its partners as the recipients of federal funds are fully committed to awarding a contract(s) to firm(s) that will provide high quality services and that are dedicated to diversity and to containing costs. Thus, Jefferson Parish strongly encourages the involvement of minority and/or woman-owned business enterprises (DBE's, including MBE's, WBE's and SBE's) to stimulate participation in procurement and assistance programs.

The purpose and intention of this invitation to bid is to afford all suppliers an equal opportunity to bid on all construction, maintenance, repair, operating supplies and/or equipment listed in this bid proposal. JEFFERSON PARISH WILL ACCEPT ONE BID ONLY FROM EACH VENDOR. Items bid must meet specifications.

Advertised bids will be tabulated and a copy of the tabulation will be forwarded to each responding bidder.

IN ACCORDANCE WITH STATE REGULATIONS JEFFERSON PARISH OFFERS ELECTRONIC PROCUREMENT TO ALL VENDORS

This electronic procurement system allows vendors the convenience of reviewing and submitting bids online. This is a secure site and authorized personnel have limited read access only. Bidders are to submit electronically using this free service; while the website accepts various file types, one single PDF file containing all appropriate and required bid documents is preferred. Bidders submitting uploaded images of bid responses are solely responsible for clarity. If uploaded images/documents are not legible, then bidder's submission will be rejected. Please note all requirements contained in this bid package for electronic bid submission.

Please visit our E-Procurement Page at www.jeffparishbids.net to register and view Jefferson Parish solicitations. For more information, please visit the Purchasing Department page at <http://purchasing.jeffparish.net>.

The general specifications for construction projects and the purchase of materials, services and/or supplies are those adopted by the JEFFERSON PARISH Council by Resolution No. 113646 or 113647 as amended. The general conditions adopted by this resolution shall be considered as much a part of this document as if they were written wholly herein. A copy may be obtained from the Office of the Parish Clerk, Suite 6700, Jefferson Parish General Government Building, 200 Derbigny Street, Gretna, LA 70053. You may also obtain a copy by visiting the Purchasing Department webpage at <http://purchasing.jeffparish.net> and clicking on Online Forms.

ADDITIONAL REQUIREMENTS FOR THIS BID

PLEASE MATCH THE NUMBERS PRINTED IN THIS BOX WITH THE CORRESPONDING INSTRUCTIONS BELOW.

13, 15

1. All bidders must attend the MANDATORY pre-bid conference and will be required to sign in and out as evidence of attendance. In accordance with LSA R.S. 38:2212(I), all prospective bidders shall be present at the beginning of the MANDATORY pre-bid conference and shall remain in attendance for the duration of the conference. Any prospective bidder who fails to attend the conference or remain for the duration shall be prohibited from submitting a bid for the project.
2. Attendance to this pre-bid conference is optional. However, failure to attend the pre-bid conference shall not relieve the bidder of responsibility for information discussed at the conference. Furthermore, failure to attend the pre-bid conference and inspection does not relieve the successful bidder from the necessity of furnishing materials or performing any work that may be required to complete the work in accordance with the specification with no additional cost to the owner.
3. Contractor must hold current applicable JEFFERSON PARISH licenses with the Department of Inspection and Code Enforcement. Contractor shall obtain any and all permits required by the JEFFERSON PARISH Department of Inspection and Code Enforcement. The contractor shall be responsible for the payment of these permits. All permits must be obtained prior to the start of the project. Contractor must also hold any and all applicable Federal and State licenses. Contractor shall be responsible for the payment of these permits and shall obtain them prior to the start of the project.

INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

4. A LA State Contractor's License will be required in accordance with LSA R.S. 37-2150 et. seq. and such license number will be shown on the outside of the bid electronic envelope. Failure to comply will cause the bid to be rejected. When submitting the bid electronically, the license number must be entered in the appropriate field in the electronic procurement system. Failure to comply will cause the bid to be rejected.
5. It is the bidder's responsibility to visit the job site and evaluate the job before submitting a bid.
6. Job site must be clean and free of all litter and debris daily and upon completion of the contract. Passageways must be kept clean and free of material, equipment, and debris at all times. Flammable material must be removed from the job site daily because storage will not be permitted on the premises. Precaution must be exercised at all times to safeguard the welfare of JEFFERSON PARISH and the general public.
7. PUBLIC WORKS BIDS: All awards for public works in excess of \$5,000.00 will be reduced to a formal contract which shall be recorded at the contractor's expense with the Clerk of Court and Ex-Officio Recorder of Mortgages for the Parish of Jefferson. A price list of recordation costs may be obtained from the Clerk of Court and Ex-Officio Recorder of Mortgages for the Parish of Jefferson. All awards in excess of \$25,000.00 will require both a performance and a payment bond. Unless otherwise stated in the bid specifications, the performance bond requirements shall be 100% of the contract price. Unless otherwise state in the bid specifications, the payment bond requirements shall be 100% of the contract price. Both bonds shall be supplied at the signing of the contract.
8. NON-PUBLIC WORKS BIDS: A performance bond will be required for this bid. The amount of the bond will be 100% of the contract price unless otherwise indicated in the specifications. The performance bond shall be supplied at the signing of the contract.
9. NON-PUBLIC WORKS BIDS: A payment bond will be required for this bid. The amount of the bond will be 100% of the contract price unless otherwise indicated in the specifications. The payment bond shall be supplied at the signing of the contract.
10. All bidders must comply with the requirements stated in the attached "Standard Insurance Requirements" sheet attached to this bid solicitation. Failure to comply with this instruction will result in bid rejection.
11. A bid bond will be required with bid submission in the amount of 5% of the total bid, unless otherwise stated in the bid specifications. All sureties must be in original format (no copies) When submitting a bid online, vendors must submit an electronic bid bond through the respective online clearinghouse bond management system(s) as indicated in the electronic bid solicitation on Central Auction House. No scanned paper copies of any bid bond will be accepted as part of the electronic bid submission.
12. This is a requirements contract to be provided on an as needed basis. JEFFERSON PARISH makes no representations on warranties with regard to minimum guaranteed quantities unless otherwise stated in the bid specifications.
13. Freight charges should be included in total cost when quoting. If not quoted FOB DELIVERED, freight must be quoted as a separate item. Bid may be rejected if not quoted FOB DELIVERED or if freight charges are not indicated on bid form.
14. PUBLIC WORKS BIDS - Completed, Signed and Properly Notarized Affidavits Required; This applies to all solicitations for construction, alteration or demolition of public buildings or projects, in conformity with the provisions contained in LSA-RS 38:2212.9, LSA-RS 38:2212.10, LSA-RS 38:2224, and Sec 2-923.1 of the Jefferson Parish Code of Ordinances. For bidding purposes, all bidders must submit with bid submission COMPLETED, SIGNED and PROPERLY NOTARIZED Affidavits, including: Non-Conviction Affidavit, Non-Collusion Affidavit, Campaign Contribution Affidavit, Debt Disclosures Affidavit and E-Verify Affidavit. For the convenience of vendors, all affidavits have been combined into one form entitled PUBLIC WORKS BID AFFIDAVIT. This affidavit must be submitted in its original format, and without material alteration, in order to be compliant and for the bid to be considered responsive. A scanned copy of the completed, signed and properly notarized affidavit may be submitted with the bid, however, the successful bidder must submit the original affidavit in its original format and without material alteration upon contract execution. Failure to comply will result in the bid submission being rejected as non-responsive. The Parish reserves the right to award bid to the next lowest responsive and responsible bidder in this event.

INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

15. NON PUBLIC WORK BIDS - Completed, Signed and Properly Notarized Affidavits Required in conformity with the provisions contained in LSA – RS 38:2224 and Sec 2-923.1 of the Jefferson Parish Code of Ordinances. For bidding purposes, all bidders must submit with bid submission COMPLETED, SIGNED and PROPERLY NOTARIZED Affidavits, including: Non-Collusion Affidavit, Debt Disclosures Affidavit and Campaign Contribution Affidavit. For the convenience of vendors, all affidavits have been combined into one form entitled NON PUBLIC WORKS BID AFFIDAVIT. This affidavit must be submitted in its original format, and without material alteration, in order to be compliant and for the bid to be considered responsive. A scanned copy of the completed, signed and properly notarized affidavit may be submitted with the bid, however, the successful bidder must submit the original affidavit in its original format and without material alteration upon contract execution. Failure to comply will result in the bid submission being rejected as non-responsive. The Parish reserves the right to award bid to the next lowest responsive and responsible bidder in this event.

16. The ensuing contract for this bid solicitation may be eligible for FEMA reimbursement and/or Federal funding/reimbursement. As such, the referenced appendix will be applicable accordingly and shall be considered a part of the bid documents. All applicable certifications must be duly completed, signed and submitted with bid submission. Failure to submit applicable certifications with bid submission will result in bid rejection.

17. For this project, the Contractor shall not pay any state or local sales or use taxes on materials and equipment which are affixed and made part of the immovable property of the project or which is permanently incorporated in the project (hereinafter referred to as "applicable materials and equipment."). All purchases of applicable materials or equipment shall be made by the contractor on behalf of and as the agent of Jefferson Parish (Owner), a political subdivision of the State of Louisiana. No state and local sales and use taxes are owed on applicable materials and equipment under the provisions of Act 1029 of the 1991 Regular Session - Louisiana Revised Statute 47:301(8)(c). Owner will furnish to contractor a certificate form which certifies that Owner is not required to pay such state or local sales and use taxes, and contractor shall furnish a copy of such certificate to all vendors or suppliers of the applicable materials and equipment, and report to Owner the amount of taxes not incurred.

It shall be the duty of every parish officer, employee, department, agency, special district, board, and commission: and the duty of every contractor, subcontractor, and licensee of the parish, and the duty of every applicant for certification of eligibility for a parish contract or program, to cooperate with the Inspector General in any investigation, audit, inspection, performance review, or hearing pursuant to JPCO 2-155.10(19). By signing this document, every corporation, partnership, or person contracting with PARISH, whether by cooperative endeavor, intergovernmental agreement, bid, proposal, application or solicitation for a parish contract, and every application for certification of eligibility for a parish contract or program, attests that it understands and will abide by all provisions of JPCO 2-155.10.

BID NO.: 50-00133612

BID FORM
Non Public Works

All Public Work Projects are required to use the Louisiana Uniform Public Work Bid Form

All prices must be held firm unless an escalation provision is requested in this bid. Jefferson Parish will allow one escalation during the term of the contract, which may not exceed the U.S. Bureau of Labor Statistics National Index for all Urban Consumers, unadjusted 12 month figure. The most recently published figure issued at the time an adjustment is requested will be used. A request must be made in writing by the vendor, and the escalation will only be applied to purchases made after the request is made.

Are you requesting an escalation provision?

YES _____ NO _____

MAXIMUM ESCALATION PERCENTAGE REQUESTED _____%

INITIAL BID PRICES WILL REMAIN FIRM THROUGH THE DATE OF _____.

For the purposes of comparison of bids when an escalation provision is requested, Jefferson Parish will apply the maximum escalation percentage quoted by the bidder to the period to which it is applied in the bid. The initial price and the escalation will be used to calculate the total bid price. It will be assumed, for comparison of prices only, that an equal amount of material or labor is purchased each month throughout the entire contract.
